## Education

### Web Development

Masai School  
September 2024-present

### Polytechnic Diploma in Computer Science

Bajaj Polytechnic Chandrapur  
September 2021 - June 2024

### Higher Secondary School in Computer Science

Sardar Patel Mahavidyalaya  
June 2019 - April 2021

## Technical Skills

- Responsive Web Design
- RESTful APIs
- MongoDB
- Express.js
- Node.js
- Git
- JavaScript
- CSS3
- HTML5

## Soft Skills

- Teamwork
- Attention to Detail

# Abhishek Vishwakarma

## Node JS Developer

### Professional Summary

Passionate backend developer from Maharashtra, India, with a keen interest in full-stack development. Currently pursuing a 30-week full-time Web Development course at Masai School. Skilled in building efficient, scalable applications using modern backend technologies while applying HTML, CSS, and JavaScript for seamless frontend integration. Committed to creating high-performance, user-friendly solutions.

### Projects

#### Investment Portfolio Tracker

[Live Demo Link](#) [Github Repo Link](#)

- React
- JavaScript
- Responsive Web Design
- Node.js
- Express.js
- MongoDB
- Git

- Collaborated with frontend developers and team members to ensure seamless integration of backend services with React-based front-end components.
- Developed and maintained server-side applications using Node.js and Express.js to provide real-time data handling and portfolio analytics.
- Implemented RESTful APIs for effective communication between frontend and backend, ensuring reliable data operations.
- Managed MongoDB database configurations and wrote efficient queries to optimize data fetching and storage processes.
- Resolved GitHub conflicts effectively, ensuring smooth team collaboration and maintaining code integrity.

#### Employee manager

- HTML5
- CSS3
- JavaScript
- Node.js
- Express.js
- MongoDB
- Responsive Web Design

- Designed and developed a backend application using Node.js and Express.js to support employee task management and time tracking.
- Implemented JWT and bcrypt for secure role-based authentication, enhancing the security of user access.
- Integrated Nodemailer and SMTP for password reset functionality, ensuring user account recovery.
- Utilized MongoDB \$lookup for efficient nested data retrieval, optimizing database interactions.
- Collaborated with frontend components to enable seamless real-time feedback and communication between managers and employees.
